### Ride For Life—Sunday 17th August Centennial Park

Adrian Atherton, Barry Doosey and myself attended the presentation of this event last week. There were 300+ guests at Parliament House. This years event will certainly be the biggest in the events 5 year history. So hurry and get your entries in. Enter online at: <http://www.nsw.cycling.org.au/>

### Kate's Surgery Success

One of the club's very popular members, Kate Roberts, underwent successful surgery at Prince of Wales Hospital Randwick today to remove a malignant tumour from her abdomen. The tumour was diagnosed several weeks ago following a routine visit by Kate to her GP. Her oncology surgeon told me this afternoon that the tumour removal was extremely successful and the mass - which was not attached to any organs - was totally extracted. He says Kate's high level of fitness will contribute greatly to her recovery from surgery and he expects to be able to release her from hospital within probably five days. It will take some seven or eight days before the full range of testing is completed on the mass and he will then decide on the next stage of his strategy to get Kate back on her bike!

Obviously, it is not practical for scores of visitors at this stage - there has been a mountain of good wishes for her many friends and acquaintances. We will advise when she is ready to see visitors and when she is back at home.

Feel free to email [des.sullivan@gmail.com](mailto:des.sullivan@gmail.com) - or call 0401 151 826 if you want to check any further detail.
